Surgical/Analyzer Cables

THRESHOLD Models and Description

Autoclavable

Model 5280 Series-

The Model 5280 Series of Threshold Cables are autoclavable. They are available in several models; 5280, 5280A (Atrial) and 5280V (Ventricle).

The Model 5280, 5280A and 5280V autoclavable, multi-use cables are 2.5 meters (8 feet) in length. On the Device end the cable has a unique Redel™ connector. On the Patient end it is bifurcated using color-coded insulated alligator (croc) clips.

The 5280 series cables fit directly into all Pace Medical products utilizing a Redel connector. For cleaning and sterilizing information contact the Company's web site or your local representative.

Surgical/Analyzer Cables
